SEI-TAG 12782G

product structure

-  thermal paper Top-Coat
-  polyester film
-  coated paper
glossy surface

product information

total weight 210g/sqm
thickness 185 μ

- tear resistant
- processable like paper (e.g. die cutting)
- optimal printable in all known print methods
- printing inks suitable for thermal paper printing required
- high sensitivity und resistance
- suitable for thermal transfer printing on back side

Storage in original packaging at 18-25 °C and at 40-60% relative humidity.

Protection against direct sun light, light sources with high UV-share, plasticizers and solvents with alcohol, ester and similar parts.
